

General Road Maintenance Schedule

The following is the general maintenance schedule the Municipal works endeavors to work within. Note that weather conditions in any particular year can greatly affect the actual timing of these functions.

Grading	March to June; September to November
Gravel Application	May 24 to mid June
Winter Clean up – sweeping	Mid April to end of May
Cold Patching	February to April; October to November or as needed weather permitting
Construction – paving, surface treatment, open grade	Mid June to Mid November
Dust Suppressant	May 24 to end of June
Ditching/Roadside cutting	July to mid November
Culvert Repair	April to November
Snow Plowing	November to March/April
Sanding	November to March/April
